To:             Chief Larry Hansen

From:           Lieutenant Richard Dean

Subject:        Purchase of Counters for the Communications Center

---

As you are aware many of the Dispatchers have complained about the poor ergonomics in the Communications Center. Of particular concern are the stationary counters at the dispatch consoles. Because the counters, which serve as computer keyboard platforms, can not be adjusted, Dispatchers often have to sit in awkward positions at their work stations. Sitting in these positions during twelve hour shifts results in discomfort and fatigue.

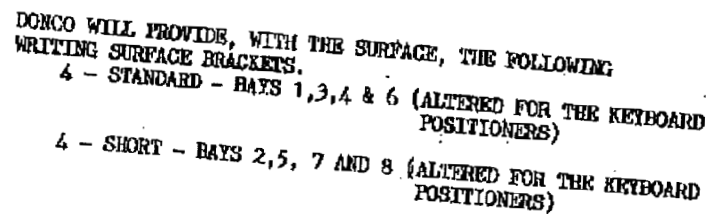

I have contacted Delta Wireless (Motorola), who services our dispatch consoles, about purchasing new counters with adjustable keyboard platforms. Delta wireless has only one supplier for the counters which have to be custom built. The cost breakdown of replacing the counters is:

Three Counters	\$4,895.00
Tax	\$379.36
Freight	\$130.00
<u>Installation</u>	<u>\$1,200.00</u>
Total	\$6,604.36

The engineering drawings and estimate for the project from Delta Wireless are attached.

SHORT BRACKET

PARTS NUMBER - 07-84018-F-02

STANDARD BRACKET

PARTS NUMBER - 07-84018-F-01

IN NORMAL CENTRACOM APPLICATIONS, THE SHORT BRACKET IS USED WHEN TWO TWENTYONE INCH BAYS ARE DIVIDED BY A 45° BAY, SO THE BRACKETS DO NOT CROSS EACH OTHER. IN APPLICATIONS WHERE KEYBOARD POSITIONERS ARE USED, SHORT BRACKETS ARE NORMALLY USED AND MUST BE ALTERED AS SHOWN ABOVE IN ORDER FOR THE REAR OF THE KEYBOARD POSITIONER TO CLEAR THE BRACKET.
